## MANTON COPELAND COLLECTION HISTORY AND BIOGRAPHY

*From the Manton Copeland Papers M039, George J. Mitchell Department of Special Collections & Archives, Bowdoin College Library.*

“Manton Copeland was born on July 24, 1881, in Taunton, Massachusetts. A member of the Class of 1904 at Harvard, from which he also received master of science and doctor of philosophy degrees, Copeland joined the Bowdoin faculty in the fall of 1908 as instructor in biology. He was promoted to assistant professor in 1909, professor of biology in 1910, and Josiah Little Professor of Natural Science in 1936, a position he held until his retirement in 1947. He taught courses in botany, vertebrate ecology and behavior, organic evolution, zoology, and special laboratory and field investigations. He also taught embryology and histology at the Medical School of Maine at Bowdoin from 1912 until it closed in 1921. In 1960 former students and friends established the Manton Copeland Scholarship Fund at Bowdoin, and in 1966 he was the recipient of the Bowdoin Alumni Council’s Alumni Award for Faculty and Staff.

Manton Copeland died on May 22, 1971, in Brunswick, Maine, survived by his three sons, Preston, Frederick, Manton, Jr. and his daughter Elizabeth. His wife, the former Ruth Winsor Ripley of Taunton, Massachusetts, who he married on December 20, 1910, died on January 17, 1965.”

Manton Copeland was at the MBL beginning in 1912 while he was a professor at Bowdoin. In 1921 he purchased land along Gardiner Road in Woods Hole from Miss Florence Tinkham and built a summer home overlooking Buzzards Bay and the MBL beach. The building on this site prior to this construction had been a small cottage built by MBL director Charles O. Whitman. Dr. Copeland created a special garden at the site, which was written up in the *Falmouth Enterprise* in 1953. The site is hilly and steep; the house is above the sloping garden and its pool along the road.

### SCOPE

Dr. Copeland made a specialty of collecting books by Cape Cod authors and collecting Cape Cod and Islands ephemera. The ephemera collection has been in the WHHM archives since the collection was donated to us. However, since most of it has nothing to do with Woods Hole, it has been de-accessioned and donated to the Cape Cod Community College’s William Brewster Nickerson Room (Cape Cod History Archives) where it has a more appropriate home.

The remaining Archives collection of Dr. Copeland includes membership certificates in various organizations (Box 1); the Dr. Elizabeth Dunn collection (Dr. Dunn was the owner of The Bookshop during the 1920s which published many booklets, local guides and maps with the artwork done by R.L. Dickinson) containing her preparation for publishing a history of Woods Hole (Box 2); a theater collection of programs and tickets from Woods Hole theater groups (Box

3) and his garden competition notebooks from 1932-33. He was an avid rock gardener, collector of wild plants and water lilies (Box 4).

## MANTON COPELAND COLLECTION

### BOX 1
