“Demise of the Turnstile?”

To the editor:

Well not completely! The “demise of the turnstile” in Falmouth somewhat bemoaned by Clarence Anderson in his winter 1992 letter to *Spritsail* (Vol. 6, No. 1, p. 35) has not been total. Not that turnstiles are needed now to keep cows out of vegetable gardens as they once were in his youth, but they are an attractive anachronism. And, with the help of Tom Stetson, I have found one. It is in a stone fence between two houses along Quissett Avenue. Your readers, as well as Clarence, may wish to see how it looks today, so here is my photo.
